**Riverland Field Days**

I look forward to seeing you all at the 2011 Field Days.

With the return to increased water allocations and a successful grain harvest, the regions growers will be looking to the Field Days for new ideas and innovations to improve their profitability.

A survey of exhibitors was conducted following the 2010 field days, regarding which days of the week were preferred for the event. We were very pleased with the extent of feedback provided. We found that in the majority of replies the status quo was preferred.

Following the success of last year’s event I welcome all exhibitors, continuing and new.

The Riverland Field Days are run by volunteers, who are all members of the Riverland Agricultural Society. There is a range of business partnership options available to all exhibitors. Details of various packages are available from the Secretary.

The official program is handed out to patrons as they enter. For a small outlay you can reach a large number of potential customers.

Riverland Field Days produces the official program and this is distributed throughout the region.
