Chairman’s Welcome...

Welcome to the 2026 Riverland Field Days. We would be thrilled to have you join us with your family as an enjoyable day out, and to support the exhibitors who put a lot of effort into bringing the latest machinery and information to the Field Days about their products and services.

As usual there is a good variety of food choices, or bring your own picnic food and enjoy the lovely grassed area and hopefully beautiful Riverland weather.

Some of the entertainment you can expect this year, is the South Australian Lawn Mower Racers Association and popular Adelaide band – Purple Monkey – specialising in 80’s and 90’s music. We are pleased to welcome our own

Cobby Steam Friends, with their display and ride on engines. For the children we have again the McDonald’s Farm with baby farm animals to pet, Face painting and Black Snake Productions will wow with their reptile display.

So come along and see what else we have in store as well as supporting our exhibitors.

I would like to take this opportunity to thank our many volunteers who work hard to ensure the success of the field days. Many thanks also to the Exhibitors who support us with their attendance and lastly, I would like to thank the public for your attendance and participation and look forward to enjoying the two day event with you.

Wes Kalisch – Chairman, Riverland Field Days Inc.

Welcome to the 67th Riverland Field Days

It is my great pleasure to welcome you to the 67th Riverland Field Days, one of Australia’s most respected and innovative agricultural events.

Since 1958, the Field Days have brought together locals and visitors from near and far to celebrate everything that makes our region unique.

Over the years it has grown into a major annual event, attracting more than 15,000 attendees and featuring more than 350 exhibitors.

For generations, primary producers have met here to exchange ideas, discover emerging technologies and explore new ways to meet the challenges of constantly evolving industries.

With primary industries and agribusinesses contributing more than \$16 billion to South Australia’s economy, the Field Days are a celebration of our regional farming communities and the importance of sustainable agricultural production.

Of course, there is plenty to enjoy beyond the farm gate. Whether you are browsing the many exhibits, watching a demonstration or taking in the live entertainment from talented locals, there is something for every age and interest.

Events of this scale do not happen without the dedication of countless volunteers, committee members, sponsors, exhibitors and community organisations. Their passion, hard work and commitment are what keeps it going. I sincerely thank and congratulate everyone involved.

Recent years have presented challenges across many primary industries and flow-on effects throughout the wider economy. It is up to all of us in the community to support each other and ask a simple but potentially lifesaving question: R U OK?

If you are visiting the Riverland, I encourage you to take the opportunity to explore everything this region has to offer. From our award-winning food and wine experiences to the stunning beauty of the River Murray, there is so much to discover within this remarkable part of South Australia.

My electorate office will once again be located at the Field Days, and I look forward to catching up with all of you. Please stop by, say hello, and remember to shop local wherever you can.

ANGOVE
Celebrating
140 YEARS
1886 - 2026

Step into a treasure of South Australian winemaking at Angove Family Winemakers, Stone's & St Agnes Distillery - Australia's oldest family-owned distillery and the Riverland regions first winery. Experience wines from one of Australia's leading organic winemakers, indulge in the World Class spirits by the St Agnes Distillery, including Australia's most awarded brandy range, or relive an old time favourite with Stone's Original Green Ginger wine and beer.

ANGOVE
SINCE 1886
FAMILY WINEMAKERS

Tucked away in Renmark in South Australia's Riverland, Angove Family Winemakers and the historic St Agnes Distillery offer a rare opportunity to step inside one of Australia's most enduring wine and spirit legacies.

Established in Renmark in 1910, Angove was the region's first winery and distillery and today remains proudly family owned by the fifth generation. In 2026, Angove Family Winemakers celebrates an extraordinary 140 years of family winemaking heritage, honouring a legacy that began in 1886 and continues to shape the future of Australian wine. Deeply connected to the Riverland, Angove has also become one of Australia's largest producers of certified organic wine, with every bottle reflecting a commitment to sustainability, quality and place.

A visit to the Renmark Cellar Door is more than just a tasting, it's a journey through history, innovation and craftsmanship.

Beyond wine, Angove's diverse portfolio also includes some of Australia's most recognised heritage brands. Visitors can discover the story behind the iconic Stones Green Ginger Wine, a beloved Australian classic enjoyed for generations and a favourite amongst fishers, campers, golfers, footy fans, chefs and really just about everyone!!

Open seven days – 271 Bookmark Avenue, Renmark, South Australia

Celebrating 140 years of Angove family winemaking and 100 years of St Agnes Distillery...
Two remarkable milestones, one unforgettable destination.

Discover a Riverland Icon... Angove Family Winemakers, Stone's & St Agnes Distillery

Sharing the same site is the legendary St Agnes Distillery, which this year celebrates 100 years of crafting Australia's most iconic brandy. Since 1925, St Agnes has produced world-class spirits using its original copper pot stills, making it Australia's oldest continually operating craft distillery. Visitors can explore the historic barrel halls on guided tours, discover the craftsmanship behind the renowned XO and ultra-aged brandies, including the ultra-rare 50-Year-Old XXO, Australia's oldest bottled spirit, and sample limited releases from Blind Tiger Organic Gin and Camborne Single Malt Whisky.

It's a place where tradition meets innovation, where the passion of five generations can be tasted in every glass, and where knowledgeable, friendly staff create the perfect setting for a memorable day of discovery.

Whether you're a wine lover, a spirits enthusiast, a beer enthusiast, or simply seeking an authentic Riverland experience, Angove Family Winemakers and St Agnes Distillery promise a warm welcome, a rich story and exceptional drinks well worth the journey.

Riverside Rodders

Mid 1983 saw 15 Riverland based Hot Rod enthusiasts get together and establish the regions first dedicated Hot Rod club to be known as Riverside Rodders. The club initially catered for Street Rods that are a vehicle manufactured prior to 1949 with a body mounted to a full chassis that has been modified for safe road use.

Over the years the club and its members have been active building and driving their Hot Rods locally, around South Australia and interstate attending various events. They have organised and hosted state and large national events bringing fellow enthusiasts from all parts of Australia to the Riverland.

Membership over the years has not increased dramatically and now the club collaborates with Riverland Customs & Classics making an enthusiast collective of 480 members.

Riverland Customs & Classics

In 2012 the very successful Big River Regional Street Rod Nationals was held at the Riverland Field Days site. They were hosted by the South Australian Hot Rod Association and Riverside Rodders and generated considerable interest amongst local classic vehicle owners and enthusiasts.

Rather than alter the aims and objectives of Riverside Rodders, its members saw this as the opportunity to establish a new classic vehicle club and so Riverland Customs & Classics was founded. Now in its fourteenth year the club is established as the largest car club in the

Riverland region and one of the largest in South Australia, with over 600 vehicles registered under the conditional club registration scheme.

Membership is available to persons who own original, restored or legally modified vehicles manufactured prior to 1978, and/or in the body likeness of, that are legally registered for use within South Australia.

Working with Riverside Rodders there are numerous events and occasions for members to get out cruising with their vehicles and socialising with like minded enthusiasts. The second Sunday each month between 9-11am there is Coffee & Cars Riverland adjacent to Playspace in Barmera, often followed by a cruise to somewhere around the region for lunch. There are also other events around the region and state to cruise to and enjoy as a club. The two major events for the clubs are the Riverland Auto Street Party in May annually which is our major fund raiser for the Royal Flying Doctor Service and has raised a total of \$36,000 over the past four years. The other event is our "cruise for a cause" which raised \$10,000 for the Berri Regional Hospital Palliative Care Team in 2025.

If you own or are an enthusiast of any of the vehicles these two clubs cater for, there is no better way to share your passion than being a member of a club that caters for your interests.

For further information on either of these clubs please contact the following:

2026 BUSHTRACKER OWNERS GROUP AGM MUSTER

70 vans and 132 members of the Bushtracker Owners Group converged on the Riverland Events Centre (Riverland Field Days Inc) for the AGM Muster, from the 25th September – 5th October, 2025.

From the first enquiry as to the availability of the site until the actual event eighteen months later I found Emma Gwiazda (Manager) to be extremely helpful. Emma was always willing to meet me and a few other committee members on several occasions in the lead up to our muster and always replied to any queries we had in a timely manner.

The members of the Field Days committee were also very obliging regarding our request to have fire pits to cook our spit roast dinner and for the camp oven cooking competition; they even went as far as digging the fire pits for us.

The whole venue, campground, pavilion, kitchen, showers, toilets and all outdoor areas were very clean and tidy.

All who attended agreed that the venue and location to the Riverland area was fabulous.

As well as all the “in-house” events that we held at the muster our ten days in the Riverland also provided a much needed boost to the local economy with members purchasing groceries, fuel, café treats and other items totalling \$87,000. The BOG committee spent a further \$59,000 locally in setting up the muster.

With generous help from our sponsors and in particular Bushtracker Int'l and member spending at the various forms of fundraising activities over the ten days of the muster, we were able to donate \$14,500 to local charities with a further \$5,500 being donated to national charities.

EXPLORE THE RIVERLAND

DISCOVER

Follow the Murray River through a landscape made for exploring. Cruise calm waterways, taste fresh local produce, wander riverside towns and discover nature, history and adventure around every bend.

Whether you have a few hours or a few days, there is always more of the Riverland to uncover.

ON THE WATER

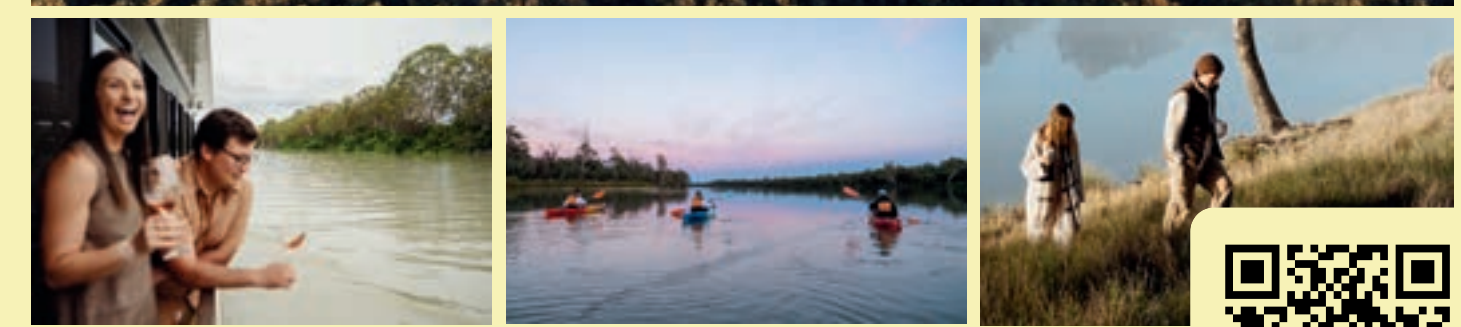

Paddle quiet backwaters, join a river cruise, cast a line or find a peaceful spot along the bank. However you explore it, the Murray River is at the heart of every Riverland adventure.

NATURE

The Riverland's natural landscapes and wildlife can be explored in many ways. Spend your days birdwatching, camping in national parks, following walking tracks through riverside towns or discovering the region on a guided nature tour.

EAT & DRINK

The Riverland is known as South Australia's food bowl for good reason, with orchards, vineyards and farms shaping what appears on local tables. Discover seasonal produce alongside cellar doors, country pubs, boutique cafés, breweries and distilleries, with menus inspired by what is grown and made nearby.

SCAN FOR MORE
INSPIRATION

Association of Caravan Clubs SA Inc.

In 2017 the Association of Caravan Clubs SA (11 SA Clubs) started the planning of the National Caravan Clubs Rally to be held in March 2022. All was going well in the planning, site locked in and a lot of entertainment booked etc, until COVID hit with restrictions on travel and contact throughout the country.

In January 2022 it was necessary to postpone the event until March 2023 and the Murray River floods hit the Riverland which put the Association of Caravan Clubs and Riverland Field Day Site committees on tender hooks again, this did have an effect on final numbers attending. Thankfully the floods subsided and the event could take place as planned.

All vans had 240v power, water and sullage, the site put in and extra dump point for the event. And with the help of ACCSA a new shower block was installed for the event.

All South Australians were sympathetic to the floods that occurred along the River Murray in 2022/23.

It was fortuitist that our 18th National Caravan Clubs Rally (NCCR) was held in Barmera from 27 March to 5 April 2023.

800+ attendees ascended on the Riverland Events Centre for 10 days, full of local food, fun, friendship and entertainment. Not only were the attendees based at Barmera, they also had the opportunity to explore the greater Riverland region, with many undertaking pre and post Rally touring throughout our great State of South Australia.

Our volunteer committee worked tirelessly in supporting and inviting local businesses to promote their varied products and services throughout the event period.

We partnered with leading local tour operator SeaLink to conduct tours for our guests. A Trade Fair (31 March-1 April) and Market Day (2 April), was held for guests and the local community was invited to join in on the activities which are supported by SA and Riverland businesses.

Our event had entertainment by local and SA artists. Hotels, clubs, cafes, wineries, retailers, supermarkets, petrol

stations etc. all benefited from these 800+ visitors to the Riverland during this time.

The Event main supporters:

Adelaide RV, Adelaide 4x4, Riverland Councils, SA Tourism Commission, Caravan and Camping SA, Destination Riverland, Discovery Parks , RedArc.

We also must thank Win TV and Radio 5RM for their exposure, and the local Mayors and Members of Parliament.

Special thanks to Emma Gwiazda, retired Tim Grieger AO and the Riverland Events Centre Committee who never said "no" and just did it. From way back in 2017 there was great connection and communication between committees.

Charitable donations during and after the event:

- Flood effected communities
- Domestic violence victims
- Aged care
- Royal Flying Doctor Service (RFDS)
- Make a Wish Australia
- Together with direct supporting organisations such as CFS, SES, Lions Club etc

A Skin Care Detection Clinic was available for all attendees and the broader local community. The first of its kind, in partnership with UniSA Cancer Research Project. This was a huge success.

The South Australian National Caravan Club Rally was voted the best ever, despite challenges from COVID, major bushfires, floods and more recently mosquito carried disease.

The volunteer committees worked tirelessly in planning this event and are proud of not only the economic benefit this brought to the Riverland communities, while also showcasing the region and the great State of South Australia.

Long table breakfast well attended over 0.5km long

Committee members on opening day

Riverland Field Days Honours Inaugural Local Hero Award 2025 Recipient

Community volunteer, technical innovator and local leader Samuel Taylor has been named the first-ever recipient of the Riverland Field Days Local Hero Award, recognising his outstanding contribution to community organisations, events and charities across the Riverland.

While many know Samuel through his professional role as a Senior ICT Support Engineer with the Department for Education, supporting 26 schools across the Riverland and Mallee, or through his business Taylor Media Solutions, it is his tireless volunteer work that has earned him this prestigious community honour.

Over the past year, Samuel has dedicated countless hours to supporting local organisations with technical expertise, audiovisual services, communications and event delivery, often working behind the scenes to ensure community events run smoothly.

A significant portion of his volunteer efforts has been devoted to Life FM Riverland, where he serves as both Vice Chair and Technical Engineer. In this role, Samuel has overseen critical upgrades to broadcast systems, improved the reliability of transmission equipment at the Loxton transmission site, modernised studio computer systems and assisted with administrative operations.

Beyond Life FM, Samuel's community involvement spans a remarkable range of organisations and events. He has worked alongside the Berri Barmera Ministers Association, providing sound and vision services for Church Together 2026, and delivered livestreaming services for the popular Berri Community Carols, helping connect audiences both in person and online.

His technical expertise has also benefited the Loxton Mardi Gras, where he provided livestream coverage of the annual community celebration, extending the event's reach to people unable to attend in person.

Samuel has supported community groups large and small, including the Loxton Garden Club, where he provided professional audio services for its Annual High Tea event, ensuring guests could clearly hear presentations and enjoy the program.

Samuel also contributed to Loxton History Night, supporting the preservation and promotion of the region's rich heritage during Local History Month in May. He produced digital media showcasing local historical stories and content, helping bring the district's history to life for attendees. In addition, he provided professional audio services for the event, ensuring presentations could be clearly heard and enjoyed by all in attendance.

A passionate supporter of the arts, Samuel serves as a committee member of the Riverland Musical Society and has provided filming services for both junior and senior productions, helping preserve and promote local talent.

At Riverland Central Church, he has played a key role in enhancing weekly worship services through improved livestreaming capabilities, audiovisual upgrades and ongoing technical innovation.

His contribution to major community events extends to the Loxton Show, where he has provided sound services for show day activities while also supporting EFTPOS systems and online ticket scanning operations. Samuel has similarly been a valued contributor to the Riverland Field Days, providing technical support and audiovisual assistance throughout the year.

Samuel's commitment to supporting local education extends beyond his professional role, regularly volunteering his time and expertise to assist Riverland schools with the filming and livestreaming of concerts, graduation ceremonies, presentations and formal events. By helping schools deliver high-quality audiovisual coverage, he has enabled families, friends and broader communities to celebrate important student achievements, while also assisting educational institutions to showcase their programs and strengthen community engagement. His support has also included providing audiovisual production services for Renmark High School's Centenary Dinner, helping the school celebrate its 100-year milestone with professional presentation technology.

"Receiving the inaugural Riverland Field Days Local Hero Award was both humbling and unexpected," Samuel said. "I have always enjoyed using my skills to support local organisations, schools and community events, so to be recognised in this way is a real honour. This award is not just about me, it also reflects the many volunteers across the Riverland who generously give their time behind the scenes to make our communities stronger."

Those who work alongside Samuel describe him as someone who rarely seeks recognition for his efforts, preferring instead to work behind the scenes solving problems, improving systems and helping organisations achieve more with limited resources.

The Riverland Field Days Local Hero Award celebrates individuals whose service makes a lasting impact on the region. As the inaugural recipient, Samuel Taylor exemplifies the spirit of community, generosity and volunteerism that continues to strengthen the Riverland.

Through countless volunteer hours, technical expertise and an unwavering commitment to local organisations, Samuel has helped community groups deliver events, improve communications and connect people across the region. The award recognises not only his achievements over the past year, but also the lasting contribution he continues to make to community life throughout the Riverland.

Congratulations to Samuel Taylor, a deserving inaugural Local Hero whose dedication, leadership and willingness to serve have made a significant and lasting impact across the Riverland community.

FSP OZ PRODUCTS

FOR YOUR VINEYARD FENCING NEEDS

FSP Oz Products specialises in manufacturing high-quality plastic fencing solutions tailored for vineyards and agricultural landscapes. Our innovative designs offer durability, weather resistance, and eco-friendly materials, ensuring optimal vineyard protection and aesthetic integration. Trusted globally, FSP Oz Products is committed to sustainable practices and customer satisfaction, supporting vineyards in maximising growth and take care of the environment.

ADVANTAGES OVER WOODEN POSTS:

Break Resistant when bent. UV stabilised PVC. No nails or clips mean no vehicle punctures. No heavy metals. Triller friendly, post will bend and straighten up if hit. Light colour reflects light and encourages growth.

REGGIE POST®

- Won't break when bent, UV stable, No nails or clips!
- High Impact polyethylene cap with rounded edges that won't snag over row netting when using.
- Conveniently spaced slots 125mm apart to take into account variation in height of canes and subsequent wire lifting. Slots also keep wires off ground when dropping.
- For use in hollows simply turn post section upside down.
- Trimmer friendly, post will bend and straighten up if hit.
- Less punctures as no nails to pull out.
- Harvest more crop around posts due to flexibility.
- Lighter colours reflect light and encourage growth.

SCAN HERE TO FIND OUT MORE ABOUT OUR FENCING OPTIONS

RAYLY POST

- Movable wire slots.
- Tee slot for easy attachment.
- Wire slot built into cap.
- Heavier duty construction.
- Custom lengths available on request.

Fuel Independence for Australian Agriculture

Visit us at Site 431

Showcasing how on farm fuel production can not only help reduce overheads but strengthen the rural community and supply chains.

By viewing farming through the lens of energy opens new opportunities for on-farm fuel production, greater energy independence, and increased value for regional communities.

How a region can benefit from a circular economy thinking, allowing farmers to diversify, get access to low carbon fuel made locally whilst supporting their region as a whole.

Steam Giants Make Their Public Debut at the Riverland Field Days

The past 18 months have been an incredibly productive and rewarding period for the volunteers of the Cobdogla Steam Friends Society. Although the Cobdogla Irrigation and Steam Museum has remained closed following the devastating River Murray floods of 2022, our volunteers have continued working tirelessly behind the scenes restoring and maintaining machinery while preparing for the day we can once again welcome visitors back through the gates.

Every Tuesday and Sunday, our volunteers gather to restore, repair and preserve an extraordinary collection of steam, agricultural and industrial heritage. From traction engines and steam rollers to locomotives, stationary engines and vintage machinery, every project represents another piece of Australian history being saved for future generations.

The centrepiece of our restoration work over the past 18 months has been the completion of our **1928 Aveling & Porter 'H' Type Steam Roller**. Built in Rochester England

and supplied new to the Adelaide City Council, it is one of only four surviving H Type steam rollers known to exist worldwide, making it one of Australia's most significant surviving steam rollers.

The restoration has involved countless volunteer hours, with members carefully rebuilding the roller while preserving its originality and historical integrity. Seeing this magnificent machine back under steam has been immensely rewarding and stands as a testament to the skill, dedication and craftsmanship of our volunteers. The 2026 Riverland Field Days will mark the first-ever public appearance of the fully restored Aveling & Porter 'H' Type steam roller, giving visitors an exclusive opportunity to witness one of the world's rarest surviving steam rollers in operation.

Another major achievement has been the completed restoration of a **1911 Ruston Proctor SC 8nhp traction engine** on behalf of the Franklin Harbour Agricultural Museum at Cowell. Cobdogla Steam Friends was entrusted with carrying out the restoration, which required extensive mechanical repairs and many hundreds of volunteer hours. The Riverland Field Days will also be the first public appearance of this beautifully restored engine before it is officially returned to the Franklin Harbour Agricultural

Museum, where it will continue preserving an important part of South Australia's agricultural and engineering history.

In August last year our volunteers proudly represented Cobdogla Steam Friends at the National Historic Machinery Association Rally at Kingsthorpe, Queensland, with our **1920 Fowler B6 Traction Engine, Douglas "The Big Hook"**. Competing alongside some of Australia's finest restored machinery, Douglas was awarded the prestigious Best Exhibit Award. This national recognition reflects the exceptional quality of the restoration and ongoing care provided by our volunteers.

Looking towards the future, planning continues for one of the museum's most ambitious restoration projects - the return to steam of **Chiverton**, our **1938 Perry Engineering steam locomotive**. Built in Adelaide for the Queensland sugar industry, Chiverton spent many years hauling cane trains before later becoming a playground locomotive. Now safely in the hands of **Cobdogla Steam Friends**, fundraising and restoration are underway to return this unique locomotive to steam so future generations can once again experience a working South Australian-built locomotive.

Although the museum itself remains closed while flood recovery and future planning continue, our railway volunteers have maintained our railway accreditation, track, rolling stock and associated infrastructure. This work ensures that when the museum reopens in 2027, heritage train rides will once again form a major part of the visitor experience.

The Cobdogla Steam Museum remains one of Australia's most unique industrial heritage sites. Situated on the historic Cobdogla Pumping Station, the museum is home to an internationally significant collection of steam machinery, irrigation equipment, agricultural machinery and rail vehicles, including the world's only operational Humphrey Pump.

Behind every restoration is a dedicated team of volunteers. Our members bring together skills in engineering, fitting and turning, boiler making, machining, fabrication, carpentry, painting and general maintenance. Together they contribute thousands of volunteer hours each year preserving machinery that would otherwise be lost forever.

**VISIT US AT
SITES 650-660**

Visitors to this year's Riverland Field Days will experience one of the largest working steam displays at the event, featuring the public debut of two major restorations - the 1928 Aveling & Porter 'H' Type steam roller and the 1911 Ruston Proctor SC 8nhp traction engine - alongside the National Best Exhibit-winning Fowler B6 Traction Engine, Douglas "The Big Hook". It is a display that showcases not only remarkable steam machinery but also the dedication and craftsmanship of the volunteers who keep Australia's engineering heritage alive.

We invite everyone attending the Riverland Field Days to visit the Cobdogla Steam Friends display, meet our volunteers and discover the stories behind these remarkable machines. If you have an interest in history, engineering or heritage preservation, we'd love to welcome you as a volunteer.

Together, we are preserving Australia's engineering heritage - one restoration at a time.
